## About SQABD

Founded on March 4, 2004, SQABD ([www.sqabd.com](http://www.sqabd.com)) is an entirely voluntary organization, supported and run by a group of individuals dedicated and passionate to supporting the cause. We are now **700+ members** in number. All funds we have go solely to run the group and aim to provide better services to our members.

We are determined to improve the Software Industry of Bangladesh. Our goal is to Build Better Software. Our success is the fact that we have recognition by the elites of the Bangladesh Software Industry where we are well known and respected.

We have an excellent list of services available to offer our community:

- SQABD Lightning Talks
- SQABD Meet the Mentors (VIDEO)
- Coffee with SQABD
- Roundtables
- 460+ rich member profiles on LinkedIn
- Mailing List discussions
- Job Newsletter
- Software Testing Consultancy
- More coming soon...

## Software Testing Consultancy

Software Testing is a misunderstood craft and we like to think that we got it right. We have the experience and skills to make your ride more pleasant and faster.

### *Our Unique Services*

Here are some of the great services we can bring to your team:

- Guide motivated Testers to acquire the necessary skills.
- Guide the company to facilitate the Test Team.
- Understand and value the context of the projects and processes before advising alternatives and solutions.
- Inspire a team of passionate Testers.
- Build a career growth plan for the Testers.
- Integrate the testing process with the release cycle.
- Guide the Test Team to find important problems quickly.
- Provide appropriate training along with training materials.
- Set an evaluation process that encourages career growth.
- Increase the probability of hiring the right testing resources.
- Grow a dependable team to provide timely health status of all the projects.
- Maintain a good Tester and Programmer relation.
- Help create productive testing artifacts.
- Increase test coverage.
- Apply tools where it makes sense.
- Emphasize on rapid testing.
- Project based testing consultancy on test techniques such as Function testing, Domain testing, Scenario testing, Flow testing, Stress testing, Claims testing, User testing, Risk-based testing, Automatic testing.

### **Consultant**

**Sajjadul Hakim** spearheads the consultancy:

- Profile: <http://www.linkedin.com/in/sajjad>
- Blog: <http://rapidtester.blogspot.com/>
- Cell: +8801711622119
- Email: [sajjad@sqabd.com](mailto:sajjad@sqabd.com)

Experience of Sajjadul Hakim:

- He has a reputation of building great Test Teams.
- He inspires Testers to be great at what they do.
- He has been relentlessly building his skills in Software Testing.
- He is in this profession for his passion in Software Testing.

Sajjadul Hakim is currently the SQA Manager at Therap (BD) Ltd. When required, he may bring his associates during the consultancy sessions. His associates are also considered as great testers.

## Consultancy Rates

The consulting business has an old saying, "Fast, cheap, and good...pick any two." We only do fast and good, and we are great at it.

~~Rate = Tk 4,000 per hour~~

### **Recession Package:**

Rate = **Tk 2,500** per hour

We realize that the current global recession has resulted in creating environments that are more challenging for Test Teams. Shorter deadlines, faster development and less staff add to the challenge. We can help!

This one investment will make your teams more productive and help to bring down costs in the coming months.

*NOTE: This special Recession Package is a limited time offer, based on the availability of Sajjadul Hakim (Consulting Software Tester).*
