We also have cooperation agreements with JPGroup (a local Java community), PHPExperts (a local PHP community), .Net Community (a local .Net community) and PHP Resources (another local PHP community). We are allowed to promote the video to the members of these communities as well.

It will do wonders for you when you are hiring!

This is a branding opportunity for your company. This is an exciting chance to promote your company to the software professionals of Bangladesh. We have taken all strategic steps necessary to highlight you as a sponsor. Read on to find out how.

Professional production!

The video package is complete with professional audio/video editing, along with a music theme provided by the popular Bangladeshi Band, “Yaatri”, from one of their hit songs.
